SUBJECT INDEX

A

Abdominal
  Intra-Abdominal Hypertension, pHi, and Splanchnic Blood Flow, 420
  intraabdominal pressure, intramucosal pH and, 420
Abdominal injury, exsanguinating penetrating, damage control for, 531
Abdominal pain, recurrent, children, laparoscopic diagnosis and treatment, 527
Abstracts from the Seventh Annual Scientific Session of the Society of Black Academic Surgeons (SBAS), 380
Achalasia
  esophageal
    botulinum toxin for, 522
    esophagomyotomy for, 521
    myotomy and dor fundoplication, 520
    pneumatic dilation treatment of, 519
  Heller's myotomy without antireflux procedure, 188
  intrasphincteric botulinum toxin for, 185
  pneumatic dilatation or esophagomyotomy treatment for, 186
Adenosine, regional tissue interaction of nitric oxide in sepsis, 384
Adrenalectomy, laparoscopic, 135
  postoperative hypertension and, 134
  right and left, 135
Alcohol abuse
  acute and chronic, trauma patients, 534
  interventions, trauma centers, practical guidelines for, 535, 536
  readmission for trauma and, 535
American Board of Surgery, annual information letter, 549
Anatomy Series, Illustrative, Posterior Abdominal Wall, 49
Anorectal fistula
  complex, modified cutting seton fistulotomy technique, 85
  complicated flap repair, 83, 84
Aortic grafting redo after aortic graft infection, 305
Apoptosis after small bowel ischemia-reperfusion, 381
Appendicitis
  pediatric complicated, clinical algorithm for, 87
  pediatric perforated
    aggressive treatment in, 86
    peritoneal cultures and antibiotic therapy, 87
Arterial grafts, infected lower extremity, muscle flaps vs. delayed secondary intention wound healing, 306
Arterial prosthesis, *in situ* replacement, bacterial biofilms infection, 304
Atrial tachyarrhythmia, parenteral magnesium sulfate vs. amiodarone in, 130
Award-Winning Article, Preoperative Serum Gastrin Level: A Prognostic Indicator in Metastatic Gastrinoma, 102

B

Bile duct evaluation, laparoscopic cholecystectomy and, 66, 67
Biliary/Pancreas
  Analysis of Reliability of Diagnosing Chronic Acalculous Cholecystitis Based on Biliary Dyskinesia and Ability to Predict Surgical Relief, 69
  Laparoscopic Cholecystectomy with Operative Cholangiogram–Routine Versus Selective, 66
  Pancreatic Cancer, 237
  Reconstruction After Resection of the Head of the Pancreas, 6
  Resection of the Pancreatic Head for Chronic Pancreatitis, 295
  Surgical Treatment of Chronic Pancreatitis, 182
  Transjugular Intrahepatic Portosystemic Shunt, Indications, Results, and Future Directions, 62
Book Reviews
  Abdominal Access in Open and Laparoscopic Surgery, Tsoi EKM, Organ CH, eds., 499
  Atlas of Cardiothoracic Surgery, Sabiston DC, ed., 499
  Atlas of Laparoscopic Surgery, by Pappas TN, Schwartz LB, and Eubanks S, 378
  Atlas of Surgical Oncology, by Bland KL, Karakousis CP, Copeland EM, 176
  Current Therapy in Vascular Surgery, 3rd ed., ed. by Ernst CB, Stanley JC, 176
  Head and Neck Surgery, Volume 1, Parts I and II, ed. by Helms C, Herberhold C, Jahrsdoerfer RA, Kastenbauer ER, Panje WR, Tardy ME, Jr., 55
  Laparoscopic Colorectal Surgery, 2nd ed., ed. by Jager RM, Wesner SD, 378
  Management of Diabetic Foot Problems, 2nd ed., by Kozak GP, Campbell DR, Frykberg RG, Habershaw GM, 176
  Management of Pediatric Trauma, ed. by Buntain WL, 55
  Minor Surgery in Practice, by Soder MB, Vija K, 176
  Pediatric Trauma: Initial Care of the Injured Child, ed. by Arensmen RM, Statter MB, Ledbetter DJ, 55
  Prevention and Early Detection of Colorectal Cancer, ed. by Young GP, Rozen P, Levin B, 378
  Progress in Vascular Surgery, Yao JT, Pearce WH, eds., 499
  Surgery for Cancer of the Larynx and Related Structures, 2nd ed., by Silver CE, Ferlito A., 499
  Surgery of the Anus, Rectum, and Colon-Volumes I and II; by Keighley MRB, and Williams NS, 55
Botulinum toxin, for achalasia, 522
Bowel syndrome, short
  Bianchi procedure, improvement in nutrient absorption and, 11
  growth hormone, glutamine, modified diet, 10
  intestinal transplant outcome analysis, 11
Breast
  cancer
    core needle aspiration of palpable masses, 242
    core needle biopsy vs. fine-needle aspiration cytology, 243
    curability of, 403
    cystosarcoma phyllodes, 311
    ductal carcinoma *in situ*, 318
    gamma-probe guided resection, radiolabeled primary lymph nodes, 322
    local recurrence 15–25 years after ductal carcinoma *in situ*, 317
    lymphadenectomy, sentinel, improved axillary staging of, 321
    lymphatic mapping, sentinel node biopsy for, 323
    The Natural History and Potential Curability of Breast Cancer, 401
    natural history with more than 10 positive nodes, 402
    node-negative, natural history with long-term follow-up, 401
    palpable lesions, triple test for, 241
    phyllode tumor, unexpected, 312
    phyllode tumors, treatment and prognosis, 312
    pregnancy and, 74
    sonography to distinguish benign/malignant lesions, 78
    subsequent pregnancy and, 75
    surgeon's role in diagnosis, 240
    surgical management and pregnancy, 75
    surgical office-based ultrasound, 77
    ultrasound-guided automated large-core biopsy, 79
  Management of Ductal Carcinoma In Situ of the Breast, 317
  Management of Phyllodes Tumors of the Breast, 311
  percutaneous core biopsy of, diagnostic accuracy, operator experience and number of samples, 314
  Role of Stereotaxic Breast Biopsy in the Management of Abnormal Mammograms, 314
  Sentinel Lymph Node Biopsy in the Management of Breast Carcinoma, 321
  stereotactic needle biopsy, 315
  stereotactic needle vs. open excisional biopsy, 315

Burns
growth hormone therapy, children and adults, 464
insulin, long-term, muscle protein synthesis and, 465

C

Calpain inhibition, lymphocyte apoptosis and, 381
Cancer, childhood, minimally invasive surgery, 526
Cardiac
Extracorporeal Membrane Oxygenation Support for the Pediatric Cardiac Patient, 28
The Fontan Procedure, 137
performance reports and referral practices, 235
Carotid artery stenosis
asymptomatic, stroke risk in, 417
recurrent, asymptomatic, surgical selection and, 418
Carotid endarterectomy
asymptomatic carotid artery stenosis, 416
impact analysis volume vs. specialty, 233
symptomatic carotid stenosis, 415
Catecholamines, soluble guanylate cyclase activity and mRNA in IL-I stimulated pulmonary artery smooth muscle, 384
Cervical spine evaluation, radiographic, 93
alert patient and, 94
blunt trauma/alert patient and, 93
Cholangiography, during laparoscopic cholecystectomy, 66, 67
Cholecystectomy
gallbladder carcinoma, limitations, 299
laparoscopic, cholangiography during, 66, 67
Cholescintigraphy, cholecystokinin-stimulated
cholecystectomy relief and, 69, 72
predictor of acalculous gallbladder, cholecystectomy relief and, 71
vs. surgery for cholecystectomy relief, 70
Cleft length, palatoplasty and facial development, 25
Cleft lip nose, primary repair, longitudinal study of, 290
Cleft palate
closure at 3 to 7 months, 24
closure in the neonate, 26
Furlow double-opposing Z-palatoplasty vs. Wardill-Kilner procedure, 292
and lip, cumulative operative procedures in older patients, 293
Coagulopathy, dilutional, impact of hypothermia on, 530
Colitis, ulcerative pediatric
familial polyposis and
mucosal proctectomy vs. extra rectal dissection, 307
proctocolectomy and quadruple limb with pouch reconstruction, 308
restorative proctocolectomy, J-pouch vs. straight pull-through, 309
Colon/Rectal Surgery
cancer, randomized follow-up study, 472
carcinoma, follow-up vs. no follow-up, 471
Current Management of Colorectal Liver Metastases, 196
Functional Results After Sphincter Sparing Operations, 14
Management of Complex Anal Fistulas, 83
Management of Rectal Injuries, 144
Management of Rectovaginal Fistulas in Crohn's Disease, 251
rectum anterior resection for carcinoma, 14
physiologic, clinical function recovery after, 15
postoperative radiotherapy, disadvantages, 16
The Role of Adjuvant Therapy for Adenocarcinoma of the Rectum, 335
5-year cancer follow-up analysis, 470
Colosplenic fistula, spontaneous, 112
Cook County Hospital, 280
Coronary artery bypass graft surgery, mortality decline, 235
Critical Care, *See also* Trauma,
Benefits of Tracheostomy including Percutaneous Tracheostomy in the Intensive Care Unit, 229
Mechanical Support for the Failing Lung, 467
Selection of Sedative Agents for Use in the Intensive Care Unit Patient, 96
Surgical
Mechanical Ventilation with Permissive Hypercapnia for the Management of Acute Respiratory Distress Syndrome, 329
Surgical Critical Care "Frontiers in the Treatment of ARDS," 398
The Use of Anabolic Hormones in Burns, 463
The Volume-Output Relationship: Evidence and Implications, 233
Crohn's disease
anovaginal and rectovaginal fistula in, 252
low anovaginal fistula, surgical approaches, 253
perianal, clinical classification of, 251
perianal fistulas
healing using a new technique, 507
surgical management, 507
transanal advancement of flap repair of, 506
rectovaginal fistula, operative results, 252
Cryosurgery, treatment of liver tumors, 510

D

Diabetes mellitus, morbid obesity, Roux-en-Y gastric bypass and, 189
Diaspirin cross-linked hemoglobin as resuscitation fluid, 285

E

East Carolina University School of Medicine, Department of Surgery, 127
Editorial
The Baby's Brain, 125
Clinical Pathways: Friend, Not Foe, 179
The Dangerous Text, 225
Doctor Lee of Wu, 1
How Very Far We Have Come. . . How Very Far We Must Go. . ., 279
"It" Happens, 459
The Surgical Personality: It Is For Real!, 387

Ethics, Provider-Specific Outcomes Data and the Law of Informed Consent, 38

F

Fontan procedure
extracardiac, 138
modified, in univentricular heart, 137
protein-losing enteropathy after, 139

G

Gallbladder cancer
advanced, surgical treatment for, 301
in Chile, 298
cholecystectomy for, 299, 302
outcome of radical surgery according to TNM stage, 302
resection, long-term results, 300
Gastrinoma, metastatic, preoperative serum gastrin level and, 102
Gastroesophageal reflux disease
antireflux surgery
failure, causes and management, 245, 246
laparoscopic, 246
patient satisfaction, laparoscopic or open, 194
comparison of medical and surgical therapy, 141
laparoscopic Nissen fundoplication, intermediate-term results, 143
Nissen fundoplication
five-year outcome, 247
open vs. laparoscopic, 142
quality-of-life assessments
gastrointestinal endoscopes, 192
laparoscopic Rosetti fundoplication, 193
Gastrointestinal Surgery, Surgery for Morbid Obesity, 189
General Surgery, Achalasia, 185
Glutathione (GSH) pretreatment of isolated perifused porcine islets, glucose and, 380
Goiter
large compressive, radioiodine for, 325
non-toxic, levothyroxine preventive effect, nine-year study, 327
Grand Rounds in General Surgery
abdominal distention and pain in young woman with breast cancer, 375
abnormal mammograms in Asian woman, 487
adrenal mass in a hypertensive woman with abdominal pain, 153
enterocutaneous fistula in middle-aged man, 435
gastric surgery, flushing and diarrhea after, 255
hip pain and difficulty in swallowing in middle-aged man, 209
metastatic colon cancer in a middle-aged man, 107
neck mass in an adolescent boy, 35
postoperative hydronephrosis with pelvic mass, 546
Grant writing, approval and funding guide, 118
Gut growth
epidermal growth factor vs. somatostatin in early gene expression, 476
forced expression of adenomatosis polyposis coli gene and, 478
glocagon-like peptide-2 and, 476
homeobox gene *Cdx2* and, 477

H

Hand, human bites to, 89
early management, 90
near metacarpophalangeal joints, infection and, 91
surgical debridement indicators, 90
Head and Neck, Current Management of Benign Pleomorphic Adenoma of the Parotid Gland, 423
Hepatocellular carcinoma, microwave coagulonecrotic therapy for, 510
Hypokalemia, magnesium replacement therapy effect on potassium retention in, 129
Hypophosphatemia
intravenous phosphate repletion regimen in, 131
phosphorus replacement with specialized nutrition, 132
Hypothermia
impact on dilutional coagulopathy, 530
uninententional, associated with postoperative myocardial ischemia, 532

I

Infections, surgical
antiseptic-impregnated hubs and intravascular catheters and, 382
cadaver skin allografts transmitting cytomegalovirus, 22
cytomegalovirus in cyclosporin-treated burn, 20
planned relaparotomy
complications of, in severe general peritonitis, 406
in severe general peritonitis, plasma levels and intraperitoneal cytokine release, 407
Planned Relaparotomy for Severe Secondary Bacterial Peritonitis, 405
planned relaparotomy vs. relaparotomy on demand, 405
skin allograft cytomegalovirus transmission, 21
Skin Allografts as a Vehicle for Transmission of Cytomegalovirus, 20
Interventions, alcohol, trauma centers, practical guidelines for, 535, 536

L

Laparoscopy
adrenalectomy, 135
postoperative hypertension, 134
right and left, 135
antireflux operation failure, causes, 245
cholecystectomy
cholangiography during, 66, 67
splanchnic ischemia during, 421
vs. open, splanchnic blood flow and, 421
comparison with traditional open splenectomy, childhood, 525
diagnosis and treatment, recurrent abdominal pain, children, 527

fetal acidosis from CO_2 pneumoperitoneum, pregnant ewe model, 100
Heller's myotomy without antireflux procedure for achalasia, 188
Laparoscopic Splenectomy for Hematologic Disease: Early Results, 150
during pregnancy, 99
primary pull-through, Hirschsprung's disease in infants and children, 528
safety during pregnancy, 99
splenectomy
for hematologic disorders, 150
lateral approach vs. open, for hematologic disorders, 151
vs. lymph node biopsy for hematologic disorders, 150
Letter to the Editor
Carepaths and Clinical Pathways: A Resident's Perspective, 388
Surgery Resident's Database System (SRDS), 460
Literature Reviews, Classical, Surgical Management of Primary Breast Cancer, 442
Liver
cancer, unresectable, intralesional ethanol in treatment of, 511
colorectal metastases to
Kupffer cell function and, 384
and lung, surgical outcomes, 383
positron emission tomography (PET) for staging, 196
repeat surgery for, 198
resection of, 197
tumor
malignant, cryosurgery in treatment of, 510
nonresectional ablation of, 509
Lung
bilateral volume reduction, patients with severe emphysema, 541
stapled reduction, versus laser bullectomy, for diffuse emphysema, 542
volume reduction, extended indications for, 543

M

Magnesium sulfate
parenteral vs. amiodarone in atrial tachyarrhythmia, 130
and potassium homeostasis in critically ill adults, 129
Medical students, who should teach surgery?, 537
Metabolism, Advanced Electrolyte Metabolism in the Surgical Patient: Magnesium and Phosphate, Frequently Forgotten and Intermittently Ignored Ions, 129
Michigan State University, Department of Surgery, 60
Microwave coagulonecrotic therapy, for hepatocellular carcinoma, 510
Myocardial ischemia, postoperative, unintentional hypothermia associated with, 532

N

Neurosurgery, Stereotactic Pallidotomy for the Treatment of Parkinson's Disease, 31
New York Methodist Hospital, Surgery at, 390
Nissen fundoplication
laparoscopic, intermediate-term results, 143
open vs. laparoscopic in gastroesophageal reflux disease, 142
vs. medical therapy in gastroesophageal reflux disease, 141

O

Obesity
cost comparison, medical vs. surgical treatment of, 190
revisional surgery, safety and long-term efficacy of, 191
Roux-en-Y gastric bypass and diabetes mellitus, 189
Oregon Health Sciences University, General Surgery Residency Program, 227

P

Pain, visceral
midline dorsal column visceral pain pathway, surgical interruption of, 474
midline myelotomy and, 474
spinal cord dorsal columns pain pathway, 473
Pancreas
cadaveric, *in vivo* gene transfer studies and, 381
chronic pancreatitis
complications, pylorus preserving pancreaticoduodenectomy, long term results, 295
duodenum-preserving head resection, long-term results, 296
duodenum-preserving head resection vs. pylorus-preserving Whipple, 183
pancreaticojejunostomy with head resection for, 182
pylorus preserving pancreaticoduodenectomy, 295
thoracoscopic splanchnicectomy for, 183
pancreatoduodenectomy, 238
gastrostomy vs. jejunostomy after, 8
pylorus-preserving vs. gastrojejunostomy, 6
with stapled closure, 7
Pancreatic adenocarcinoma
chemoradiation, pancreaticoduodenectomy, radiotherapy for, 205
ductal
five-year clinicopathologic analysis, 204, 239
long-term survival after resection for, 237
pancreaticoduodenectomy with en bloc resection of superior mesenteric-portal vein confluence, 205
Parkinson's disease
advanced, ventroposterior medial pallidotomy, 32
Leksell's posteroventral pallidotomy, 31
posteroventral pallidotomy efficacy, 32
stereotactic ventral pallidotomy for, 33
Parotid gland
pleomorphic adenoma, primary benign, parotidectomy review, 424
pleomorphic adenomas, retrospective study of surgical methods, 423
recurrent pleomorphic adenoma, retrospective study of, 424
Pediatrics
burns, permissive hypercapnia as ventilatory strategy, 331
cancer, minimally invasive surgery, 526
colectomy vs. ilioanal pull-through, long-term results, 310
computed tomography in blunt abdominal trauma, 17
Current Management of Long-Gap Esophageal Atresia, 408
Diagnostic Modalities in Pediatric Blunt Abdominal Trauma, 17
esophageal atresia
anastomosis treatment, long-term complications, 410
gap length measurement and outcomes, 409
esophageal replacement, colon interposition for, 408
extracorporeal life support for cardiac support, 28
extracorporeal membrane oxygenation
after cardiac surgery, 29
in cardiac arrest after cardiac surgery, 30
for cardiac support, 28
Hirschsprung's disease, primary laparoscopic pull-through, 528
laparoscopy, comparison with traditional open splenectomy, 525
laparoscopy in seat belt trauma management, 19
Management of Antibiotic Therapy in Complicated Appendicitis, 86
